

CENSIMENTI PERMANENTI POPOLAZIONE E ABITAZIONI

ACCESS TO THE QUESTIONNAIRE FROM SGI

DISTRIBUTION RANGE SURVEY

Questionnaire of the permanent census of the population and housing

What is the permanent census?

ISTAT is observing — annually rather than every ten years — **the principal characteristics of the population** usually living in this country and its social and economic conditions on a national, regional and local level.

The permanent census of population and housing does not involve all Italian families but a sample of them every year: in 2021, it will be about 2 million and 400 thousand families living in 4.500 municipalities.

Am I required to respond?

Yes, the requirement to respond to this survey is sanctioned by article 7 of Legislative Decree no. 322/1989 and by the Presidential Decree of 25 November 2020 approving the 2017-2019 National Statistical Programme - 2019 Update.

The survey is included in the National Statistical Programme in force and may be viewed on ISTAT's website at: www.istat.it/it/organizzazione-e-attività/organizzazione/normativa.

Is my privacy protected?

Yes, all responses provided are protected by the law on the protection of privacy (Reg. (UE) 2016/679, Legislative Decree no. 196 of 30 June 2003 and Legislative Decree No. 101/2018). All persons involved in the planned census activities are held to professional secrecy as per article 8 of Legislative Decree no. 322/1989 as well as to statistical secrecy in accordance with article 9 of the same decree.

Whom can I contact in case of difficulty?

To get assistance and information during the survey, you can:

- call the toll-free number **800.188.802**
This service will be active from 1 October to 23 December from from 9:00 a.m. until 9:00 p.m.
- write to our electronic mail account at censimentipermanenti.popolazioneareale@istat.it

Guide to completing the survey

What does the questionnaire contain?

- The **list** of all family members, meaning all persons who usually live in that housing, even if they are absent at the time of the survey. An **individual form** must be filled out for each person on the list.
- The **Housing** section, which contains questions about the type of housing, the features of the housing, the structure and the availability of cars and parking.
- The **Other Information** section, which contains questions on how to complete the survey and our communications channels.

Who must complete the questionnaire?

- **All members of the family** need to work together to fill out the individual forms.
- The questionnaire must only be filled out if, as of 3 October 2021, the family was habitually living at the address where the letter signed by our president was sent.

How should the questionnaire be filled out?

- All answers should be provided with reference to **3 OCTOBER 2021**, except where a different period is indicated.
- To start filling it in, you must enter the Family section and fill in the List of members. After **creating the List**, the individual Forms and the Accommodation section can be filled in.
- The Other information section may be filled in after completing the individual Forms and the Accommodation section.
- You can **save** the information at any point and continue later, even after exiting the questionnaire, without losing any data.
- You can get **more information** on some of the questions by clicking the 'i' symbol.
- After all sections have been filled in, you can view the answers provided on the **Summary** page.
- To complete filling it in, you must **send the questionnaire** from the Send page or from the Summary one.
- After the questionnaire has been submitted, it will no longer be possible to make any changes.

What is meant by a family?

A family is a group of persons connected by bonds of marriage, civil union, kinship, extended family, adoption, guardianship or affection, **cohabitants** and those habitually living in the same municipality (even if they are not yet registered at the Civil Registry in their municipality). A family can also consist of just one person.

Persons who are temporarily absent (note 1) continue to be part of the family, whether they are in other housing (or another living arrangement) in the same municipality or in another municipality or abroad. For more information on families living together, click "i" (note 2).

Note 1. Temporary or occasional absence from one's family is generally due to one of the following reasons:

- emigration to another municipality or abroad, if it is emigration for the performance of seasonal or temporary occupations. Specifically, it refers to persons who, to reach the municipality where they perform their professional activities, absent themselves from their customary dwelling, the place where they have their residence, their family and their registration, returning in the evenings or weekly;
- education: those who study away from home, regardless of the frequency they return there;
- admission to a health facility of any type, provided their stay in that municipality does not exceed two years;
- detention while awaiting a judgement;
- business, tourism, brief treatments and the like;
- state service abroad;
- boarding ships in the Italian Navy and merchant navy..

Note 2 For cohabiting families, the family to whom addressed the letter must fill out the questionnaire.

The list of family members must include **all persons belonging to the family**, that is:

- **italian** citizens customarily living in this residence³, even if absent on the date of the survey;
- **foreign** citizens customarily living in this residence³ and registered in the civil registry or in possession of proper credentials to stay in Italy (note 3), even if absent on the date of the survey.

The **contact person** is the one to whom the letter from ISTAT was addressed, generally the holder of the family document.

The information about name, surname and tax code must be set out accurately. In particular, with foreign names and surnames it is advisable for the interviewee to set them out on a piece of paper and then acquire them.

Note 3. Even foreigners whose legalisation process is still underway (but uncompleted) have a valid title to reside in Italy.
